D.R.E.A.M.S.

The Trust Framework for the Sharing Economy

by BlaBlaCar

D.R.E.A.M.S. is a new framework that establishes the six pillars of trust in a peer-to-peer network; it demonstrates that, in order to interact with each other with confidence, members must have access to the information that is Declared, Rated, Engaged, Activity-based, Moderated and Social.

Lisa is very reliable & friendly. Thanks for making a detour to drop me off.

Interesting travel companion, loved learning about goat herding in Nepal!
